# **INTRODUCTION**

- 1. I am the Managing Director and Head of Kroll Notice Media Solutions ("Kroll Media"), a business unit of Kroll Settlement Administration LLC ("Kroll"), the proposed Settlement Administrator in the above-captioned case. This declaration is based upon my personal knowledge as well as information provided to me by my associates and staff, including information reasonably relied upon in the fields of advertising media and communications. This declaration is being filed in connection with final approval of the Settlement.
- 2. Kroll was appointed as the Claims Administrator, to provide notification and claims administration services in connection with that certain Settlement Agreement and Release (the "Settlement Agreement") entered into in this Litigation, including to develop and implement the Substitute Media Notice portion of the Notice

<sup>&</sup>lt;sup>1</sup> Capitalized terms used but not defined herein have the meanings given to them in the Settlement Agreement (as defined below).

Program that is reasonably calculated to provide Notice to Settlement Class Members in connection with the Settlement.

- 3. This declaration provides a report concerning the successful implementation of the Notice Program, as previously detailed to the Court in the *Declaration of Jeanne C. Finegan, APR of Kroll Settlement Administration LLC in Connection With Preliminary Approval of Settlement*, filed October 6, 2023. The Notice Program commenced on January 12, 2024, and was substantially completed on February 11, 2024.
- 4. The Substitute Media Notice employed best-in-class tools and technology and optimizations which, in combination with Mail Notice, ultimately reached an estimated 81.6% of potential Class Members, *i.e.*, Adults over the age of 35, on average 1.4 times. In total, the Notice Program served over 56,000,000 online display and social media ads.

#### SUMMARY OF THE NOTICE PROGRAM

- 5. The Notice Program included the following components, each of which is described in more detail below:
  - Receiving and analyzing the Settlement Class Member contact information (the "Class List") provided by Kroll Information Assurance, LLC, the outside cybersecurity experts Defendant worked with immediately following the Incident;

# **DATA AND CASE SETUP**

# The Class List

6. On December 11, 2023, Kroll received three (3) data file(s) from Kroll Information Assurance, LLC. The first file contained 881,794 records, the second file contained 896,426 records, and the third file contained 611,885 records, all with membership numbers, client identifiers, first and last names, physical mailing addresses, and information contained on the Incident letters for Settlement Class Members. Kroll undertook several steps to reconcile the three lists and compile the eventual Class List for the sending of Mail Notices. A total of 2,629 duplicate records were removed. A total of forty (40) records were removed due to missing and/or incomplete addresses The data was reformatted; de-duped based on names and addresses; and combined into a single data file comprising 2,387,436 unique records. Additionally, in an effort to ensure that Mail Notices would be deliverable to Settlement Class Members, Kroll ran the Class List through the United States Postal Service's National Change of Address ("NCOA") database and updated the Class List with address changes received from the NCOA.

# **Post Office Box**

7. On September 22, 2023, Kroll designated a post office box with the mailing address *Lincare Holdings, Inc. Class Action*, c/o Kroll Settlement Administration LLC, PO Box 225391, New York, NY 10150-5391, in order to receive opt out notifications, objections, Claim Forms, and correspondence from Settlement Class Members.

# **Settlement Website**

8. On December 6, 2023, Kroll created a dedicated Settlement Website entitled www.LincareSettlement.com. The Settlement Website "went live" on January 11, 2024, and contains notice of and information about the Settlement, a copy of the Settlement Agreement, the Notice, the Preliminary Approval Order, the Claim Form, the Complaint, an "Important Dates" section that prominently lists the notable dates and deadlines concerning the Settlement, and allowed Settlement Class Members an opportunity to file a Claim Form online. As of February 13, 2024, Kroll has received 93,042 total unique users to the Settlement Website.

# **Toll-Free Information Telephone Line**

9. On December 14, 2023, Kroll established a Telephone Hotline, (833) 383-4044, for Settlement Class Members to call and obtain additional information regarding the Settlement through an Interactive Voice Response ("IVR") system and/or by being connected to a live operator. As of February 13, 2024, the IVR has received 15,791 calls totaling approximately 14,059 minutes, and 4,599 callers have been connected to live operators.

# **CAFA NOTICE**

10. As noted above, on behalf of the Defendant, Kroll provided notice of the proposed Settlement pursuant to the Class Action Fairness, Act 28 U.S.C. §1715(b) ("the CAFA Notice"). At Defendant's counsel's direction, on October 16, 2023, Kroll sent the CAFA Notice, a true and correct copy of which is attached hereto as **Exhibit A**, via first-class certified mail, to (a) the Attorney General of the United States and (b) the 56 state and territorial Attorneys General identified in the service list for the CAFA Notice, attached hereto as **Exhibit B**. The CAFA Notice directed the Attorneys General to the website www.CAFANotice.com, a site that contains all the documents relating to the Settlement referenced in the CAFA Notice.

# MAIL NOTICE VIA POSTCARD

- 11. On January 12, 2024, Kroll caused 2,387,436 Mail Notices to be sent via first-class mail. A true and correct copy the Mail Notice, along with the long form Notice, are attached hereto as **Exhibits C and D**, respectively.
- 12. As of February 13, 2024, 12,652, Notices were returned by USPS with a forwarding address. Of those, 12,233, Mailed Notices were automatically re-mailed to the updated addresses provided by USPS. The remaining 419 Mailed Notices were re-mailed by Kroll to the updated address provided by the USPS.
- 13. As of February 13, 2024, 144,064, Mailed Notices were returned by the USPS as undeliverable as addressed, without a forwarding address. Kroll ran 144,064, undeliverable records through an advanced address search. The advanced address

search produced 87,823, updated addresses. Kroll is in the process of remailing Mailed Notices to the 87,823 updated addresses obtained from the advance address search.

# ONLINE DISPLAY ADVERTISING

- 14. Kroll Media utilized a programmatic<sup>2</sup> noticing approach, employing a computer algorithm to show a specific advertisement to a specific visitor in a specific context, *i.e.*, on a particular website that a potential Settlement Class Member is visiting across an allow list<sup>3</sup> of approximately 6,000 websites. These advertisements were device agnostic and appeared across desktop, laptop, tablet, and mobile device.
- 15. Online display advertisements were targeted to adults over the age of 35, to people who have respiratory ailments, heart disease, or sleep disorders as well as parents of infants, toddlers and young children who have the same. Banner ads also appeared within topic relevant content and on age relevant websites including aarp.org, cnn.com, website.com and website.com among others.

<sup>&</sup>lt;sup>2</sup> Programmatic refers to computerized media buying of advertising inventory. The mechanics of programmatically serving an online ad are as follows: a user visits a website, and the browser sends a request to the publisher's web server asking for the page's content (*i.e.*, HTML). An invocation code placed on the page loads an external static ad tracker code. The ad tracker makes a request to the ad server querying for an ad markup (also called creative tag) to be loaded into the ad slot. The ad server responds with the ad markup code (before it's returned, the ad server executes all targeting/campaign matching logic). Finally, the publisher's web server returns the information rendering the page's content with specifically targeted ads to that user.

<sup>&</sup>lt;sup>3</sup> An "allow list" is a custom list of acceptable websites where ad content may be served. Creating an allow list helps to mitigate ad fraud, ensure ads will be served in relevant digital environments to the target audience and helps to ensure that ads will not appear next to offensive or objectionable content.

#### **SOCIAL MEDIA ADVERTISING**

- 16. Social media ads on Facebook and Instagram appeared across users' newsfeeds, stories, and videos. These ads employed multiple layers of targeting and focused on adults over the age of 35 as well as Facebook and Instagram users who have *liked, followed* or *interacted* with relevant pages, accounts, videos, posts and/or tags. Such pages and accounts included Respiratory Care, Neonatal & Pediatric Respiratory Review, COPD Net, CPAP Com, COPD, Respiratory Support, and Asthma Awareness. Post and hashtags included #Lincare, #respiratory disorders, #nebulizer, #oxygentherapy and #parentsofpreemies, among others.
- 17. A true and correct copy of the display banner ads and social media ads are attached hereto as **Exhibit E**.

# GOOGLE KEYWORD SEARCH ADS

18. Kroll Media utilized keyword search advertisements on Google. When searching for specific keywords or phrases related to the Settlement and the Settlement Class, a sponsored link appeared providing brief information about the Settlement and Settlement Class and directed the user to the Settlement Website for more information.

# PRESS RELEASE IN THE UNITED STATES AND U.S. TERRITORIES

19. On January 12, 2024, a press release was issued over PR Newswire's US1 Newslines. PR Newswire distributes to thousands of print and broadcast newsrooms nationwide, as well as websites, databases and online services. Kroll Media monitored

media outlets for mentions of the release in the news. Over 270 news mentions of the Settlement resulted from the press release.

20. Attached as **Exhibit F** is a copy of the press release and pick-up report.

# **CLAIM ACTIVITY**

- 21. The Claims Deadline is April 15, 2024.
- 22. As of February 13, 2024, Kroll has received 258 Claim Forms through mail and 16,079 Claim Forms filed electronically through the Settlement Website. Kroll is still in the process of reviewing and validating Claim Forms.

# **OPT-OUTS, EXCLUSIONS AND OBJECTIONS**

- 23. The Opt-Out and Objection Deadlines is March 14, 2024.
- 24. As of February 13, 2024, Kroll has received fifty-three (53) opt out requests and no objections to the Settlement. A list of the opt outs received is attached hereto as **Exhibit G**.

#### **CONCLUSION**

25. In my opinion, the Notice Program reflects a particularly appropriate, highly targeted, and contemporary way to provided notice to Settlement Class Members. Further, in my opinion, the efforts undertaken in this Notice Program are of the highest modern communication standards, are reasonably calculated to provide notice, and are consistent with best-practicable, Court-approved notice programs in similar matters and the Federal Judicial Center's guidelines concerning appropriate reach.

I declare under penalty of perjury, under the laws of the United States of America, that the foregoing is true and correct.

Executed on February 13, 2024, in Tigard, Oregon.

The information that may have been disclosed in the Incident possibly included, first and last names, addresses, Lincare account numbers, date of birth, medical information, which may include information concerning medical treatments individuals received such as provider name, dates of service, diagnosis/procedure, and/or account or record numbers, health insurance information, and/or prescription information. In very limited circumstances, Social Security numbers may have been impacted in the Incident. Defendant's records show that you may have been affected by the Incident, and thus you may be entitled to recover under

In the Litigation, the Plaintiffs allege that Defendant violated certain duties with respect to the personal data of patients when patients' PII may have been compromised as a result of the Incident. Defendant denies any wrongdoing and denies all claims asserted against it in the Lawsuit. Both sides have agreed to settle the Lawsuit solely to avoid the cost, delay, and uncertainty of litication.

The Settlement Class consists of all individuals in the United States whose PII was stored by Lincare Holdings Inc. and potentially disclosed, compromised, or accessed as a result of the cyber-breach or data incident experienced by Lincare Holdings Inc. in September 2021.

Contingent upon the Court's approval of the Settlement, Settlement Class Members who submit a valid and timely Claim may be entitled to: (a) reimbursement of certain Out-of-Pocket Losses resulting from the Incident; (b) reimbursement for Lost Time spent dealing with the effects or perceived effects of the Incident; and (c) monetary relief for Settlement Class Members who were residents of California during the time of the Incident (i.e., September 2021). Settlement Class Members may also enroll in 12 months of free identity theft protection and medical information monitoring through Medical Shield. The total amount of your Settlement Claim depends upon the type of losses you have experienced and the documentation you have for your Claim, as well as the total number of valid and timely Claims filed by all Settlement Class Members.

To represent the Settlement Class, the Court has appointed John A. Yanchunis of Morgan & Morgan Complex Litigation Group and other counsel as "Class Counsel". For litigating the case and negotiating the Settlement, Class Counsel will file a motion seeking Court approval for the payment of their attorneys' fees and costs in an amount no greater than one third (33.3%, or \$2,416,666.67) of the Settlement Fund for attorneys' fees and no greater than Fifty Thousand Dollars and No Cents (\$50,000.00) for reimbursement of litigation costs and expenses.
